The Thief River Falls AVTI Practical Nursing program is a member of the Agassiz Region Nursing Education Consortium (ARNEC). The ARNEC is a group of schools working together in an innovative approach to nursing education. The ARNEC offers a creative and flexible program to those interested in nursing education.

A number of schools in Northwestern Minnesota, along with schools in Minneapolis, Minnesota, and Grand Forks, North Dakota, developed this program. The program allows students the opportunity to complete nursing education at one level and have the option to later further his/her education and receive a higher degree. This option can be exercised immediately with the student continuing his/her education to the desired level or the student can graduate at one level, work, and later return for more schooling. This mobility is possible through curriculum development which is identical in each participating school. It is an excellent opportunity for the nursing graduate not available in most schools in Minnesota or in the nation.

Schools participating and the degree level offered include: Nursing Assistant at Bemidji, Crookston, East Grand Forks, and Thief River Falls; Practical Nursing at Bemidji, Crookston, and Thief River Falls; Associate Degree in Nursing at Thief River Falls; and a Baccalaureate Degree in Nursing at Grand Forks, North Dakota, Minneapolis, Minnesota and Moorhead, Minnesota.

ORGANIZATIONS

Student Senate

The Student Senate is the governing unit of the student body through which all student activities are scheduled. Students are offered a chance to exhibit their leadership ability through their participation on the Senate and the various committees appointed by the Senate. Each class elects one representative and one alternate for every ten students enrolled in their program. The leadership training gained through this type fo participation is a valuable part of their educational experiences. The 1980-81 Senate began the year with a picnic at Val Hall. A meal was catered through Kentucky Fried Chicken and various activities kept most people busy. In October four member and Mrs. Anderson, the advisor, attended a three day statewide AVTI Senate Convention in Duluth. Many seminars and programs were scheduled to help the schools get a good start in 1980. In conjunction with Northland Community College a Halloween Costume Dance was held at the Golf Club. With a capacity crowd in attendance, many danced the night away. The Senate Organized and conducted a blood drive for the community in cooperation with Northern Blood Service. 76 students donated blood with as many studnets turned away for lack of time. "Short Notice" played until midnight for AVTI and NCC students who came to the Christmas dance in the commons. In spite of the lack of snow some sixty students journeyed to Quadna Ski Resort in Grand Rapids for a day of skiing late in January. The weather was beautiful and the day turned out to be superb! With much of the school year behind them, the Senate will spend the last months planning activities to close out the year. Included are: a fund raiser for the mentally retarded, the Spring Conference in Mankate, spring elections for President and V. President, a spring banquet and dance, and the spring picnic to close out a 'good' year.

Officers for the year year: President Bob Kessler; Vice President Don Scott; Secretary Patti Burstad; Treasurer Brad Barth; Parliamentarian Alan Grossman; Advisor Kay Anderson. Karlene Wages, Kim Liden 3rd place winners at the Halloween Dance for best costume.

Mark Askeland getting ready to tackle 'Mount Exterminator' at Quadna.

M.O.E.A.

M.O.E.A. is a new vocational youth organization for the purpose of providing youth enrolled in vocational office education programs with a vehicle for learning and advancing within their career field. The organization's activities provide for leadership development, social development, and citizenship training, as well as an increased knwoledge of the office and its future. In November, several members participated in the MOEA Fall Delegate Convention in Minneapolis. Kim Liden, Diane Max, and Sande Jadeke were candidates for state office. At Christmas, a party was held at the 'Place' with pizza following at the Pizza Hut. In February, the members sponsored a bowl-a-thon to raise funds for Special Olympics. Over $500 was raised to support the needs of the community. National OEA week was the week of February 9. Not only was the bowl-a-thon scheduled but the members also took on a pancake breakfast opened to the school and the community. Late in the week carnations were sold and delivered both as a fund raiser and Valentine special. Various other projects were held continuously throughout the year: holiday favors made for the old folks' homes, Christmas goodies for the shelter for battered women, etc. Members competed in skills contests in Minneapolis early in March. 1980-81 was a busy year.

V.I.C.A.

V.I.C.A. is the official organization of vocational education and is open to all students enrolled in vocational programs. Its prime goal is to advance vocational education throughout the world and to develop an appreciation for the world of work. Membership in VICA is on both state and national levels. Students compete with one another in state and national competition. In June, 1980, Stan Springsteen, an Electronics student, competed in national competition in Atlanta, Georgia, after capturing first place at state competition. Stan did not place in Atlanta but gained much from the experience.

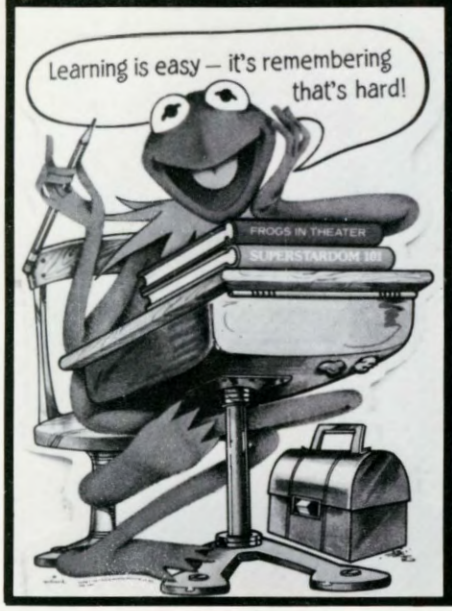
V.I.C.A. also offers an opportunity to develop leadership skills to members. Officers are elected in the local chapters, at the state level and the national level. A second-year Electronics student, Alan Grossman, was elected as parliamentarian of the state chapter of V.I.C.A., the first state VICA officer from the local AVTI.

Grossman campaigned for the office at the 1980 Minnesota VICA delegate assembly, attended by more than 400 delegates at Arrowood Lodge in Alexandria. As a state officer, Grossman will join other state officers at the National VICA conference to be held in Atlanta, Georgia.

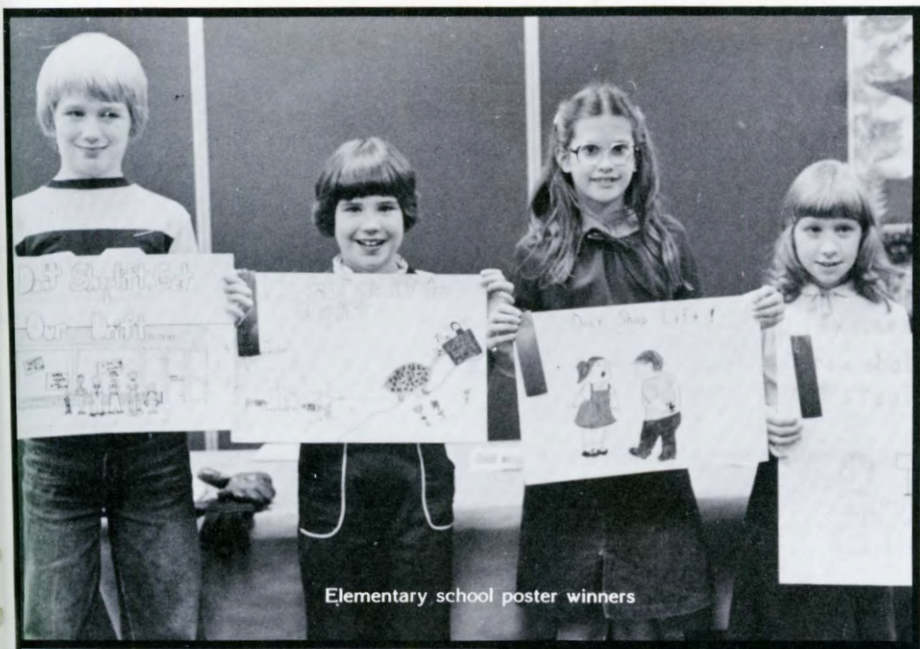
Shari Muzzy, first place winner in local Cosmetology skills contest.

Dwayne Carlson took second place honors in the local skills competition for Cosmetology students.

Alan Grossman was elected to the office of State Parliamentarian for V.I.C.A.



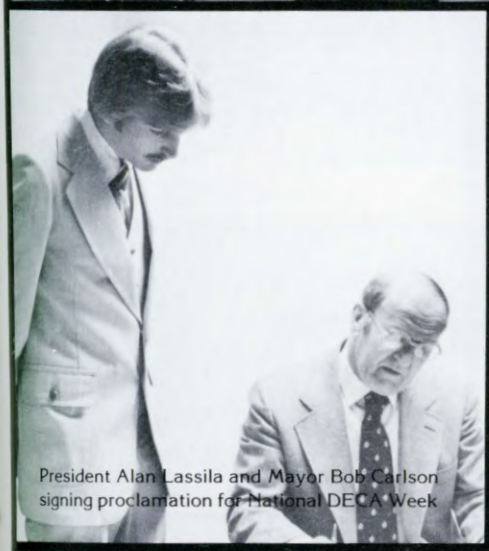
Ron Konickson, V.I.C.A. advisor



Elementary school poster winners

D.E.C.A.

D.E.C.A. is the Distributive Education Clubs of America and is instrumental in advancing vocational educational goals in the distributive education field. The objectives are to develop competence in marketing, self-confidence in individuals, and to increase product knowledge in distributive education. Members of the AVTI D.E.C.A. Club spent three days in Duluth at the beginning of the school year participating in seminars and programs geared towards professional growth and development. Since then these same members have been active with various fund raisers which not only support their activities but also provide experience in their chosen profession. D.E.C.A. was also busy with a "Shoplifting Prevention" promotion in cooperation with the local Chamber of Commerce. It was very successful in getting the local schools involved and in promoting community goodwill. Members will be eligible for both state and national competition to be held in Minneapolis in the spring.



President Alan Lassila and Mayor Bob Carlson signing proclamation for National DECA Week

Yearbook Staff

Each year the yearbook is produced by the students of the AVTI. Participation is open to anyone interested. Production begins with the start of the school year and continues until the deadline late in February; at that time final copy is mailed to the publisher and returned in its finished form in May.

AVTI Students On Northland Teams

Local cooperation by the Thief Riber Falls education officials has led to the establishment of a national program in post high school athletics. As a result of a locally initiated project, the National Junior College Athletic Association has approved allowing students from the AVTIs to become fully eligible members of athletic teams at state supported community colleges.

The following students participated on Northland Community College teams during the 1980-81 school year: Volleyball-Lois Bates, Diane Max, Mary Sovde; Football - Russell Boyer Coby Burslie, Mike Busse, Dave Gorski, Dave Lee; Hockey-Mike Baltich, Jeff Hocking, Dusty Krohn, Terry Mishler, Patrick Murray, Charlie Sehler. It is expected that a number of AVTI students will also participate in NCC spring sports.

Anne Pearson, Thief River Falls, cosmetology student receiving a $100 scholarship from LaVonne Swanson, president of the American Legion Auxiliary Post 117.

Terry Drangstveit, Goodridge, a student enrolled in Farm Operations receives a scholarship of $100 from Harry Solberg of the Goodridge Scholarship Fund.

A.V.T.I. Scholarship Tea

The annual Thief River Falls Area Vocational Technical Institute Scholarship Awards presentation, held each year in conjunction with National Vocational Education Week, was held Thursday, February 12, 1981, at 2:00 p.m. in the AVTI cafeteria.

Special guests for the ceremonies were the parents of the student award winners as well as a number of representatives from various sponsoring organizations and business firms.

Also in attendance at the afternoon event and presenting brief remarks were Dr. W. S. Corliss, Superintendent of Schools, and Dr. Q. D. Gunderson, Director of the Area Vocational Technical Institute.

Highlight of the afternoon's activity was the presentation of scholarship awards to 62 AVTI students.

A special feature of this year's event was the presentation of special "Certificates of Appreciation" to the many scholarship donors, many of whom had donated funds to the AVTI Scholarship Fund every year of the eleven years it has been in existence.

Student winners were selected by the Avti Faculty Scholarship Committee from a large number of applicants. Selections were based on school performance as well as financial need.

Members of the AVTI Scholarship Committee are: Mrs. Julie Thorson, Mrs. Dolores Bakke, Mr. John Egge, Mr. Dennis Wilkins, Mr. Dean Paskewitz, Mr. Donald Hermanson and Mr. Robert Reeve, Chairman.

The annual National Vocational Education Week Scholarship Awards are part of the AVTI's on-going program of financial assistance to students.

Pictured, front row, left to right, are: Patricia Osland, Erskine, Secretarial N/S; Linda Pahlen, Red Lake Falls, Accounting I; Dwayna Haugen, McIntosh, Julene Guenther, Waubun, and Shari Muzzy, Argyle, all cosmetology students; back row, left to right, Sally Rabenhorst and Denise Riesen, Viking, practical nursing; Tim Gronberg, Minneapolis, Robert Kessler, Sauk Rapids, and Chris Mushel, Crookston, avation mechanics. All students received $100 scholarships from the fund.

ADMINISTRATION AND STAFF

BOARD OF EDUCATION

Seated: Lawrence McDowell, Vice Chairman; Kenneth Wiebolt, Chairman; Kenneth Murphy, Clerk. Standing: Myrle Carlson, Director; Harry Sjulson, Treasurer; Greg Pribula, Director; Wallace Grovum, Director; Dr. William Corliss, Superintendent.

Dr. William Corliss
Superintendent

The Board of Education of Independent School District 564 establishes the policies for the operations of the school district within the State and Federal guidelines. They employ a Superintendent of Schools as their general administrator and hold him responsible for educational and operational management. Teh AVTI is included in School Distric 564.

In addition to the Board of Education, the AVTI, as required by the Law of the State of Minnesota, also works under the guidance of advisory committees.

An advisory committee is a group of citizens selected to collectively provide advice to the public school in regard to vocational education. The members are mostly from outside the field of education representing labor, management, and the general public. The members are selected because of specialized expertise and knowledge. They serve only as advisory, without administrative authority, and usually serve without pay or compensation. The General Advisory Committee assists in the development and maintenance of the entire vocational program of a school and a school district. They identify the needs of individuals and community; help assess labor market requirements; contribute to the establishment and maintenance of realistic and practicla programs; participate in developing community understanding and support; aid in building the prestige of an respect for the entire program of occupational education; and, are concerned with long range goals.

Departmeental Advisory Committees serve one occupational area in a vocational school. They assess programs according to local needs and suggest changes and additons for the curriculum.

An advisory committee doesn't automatically guarantee a successful program nor will it follow the committee function will be without problems and conflicts. But a school and its representative, realistically prepared and aware of what such a lay group can contribute, can draw from the experience which is required to build and maintain good, sound programs.

When the advisory role is not filled, the school and the community cannot benefit from the exchange between educator and committee that presses programs to more effective operation. More importantly, if the program function doesn't match its potential, the individual student is denied the maximum amount of help that could, and should, be available to him—help that comes only from the interaction of those who will educate and train him and those who will hire him.

Adult Education

The Thief River Falls AVTI offers additiona educational opportunities to northwest Minnesota residents through its adult vocational program. These courses, workshops, and seminars are offered to meet the following objectives: to allow residents to upgrade themselves in their present job or career; to allow residents to retrain themselves to enter a different occupational field; to allow the unemployed person training opportunities for employment; to extend the AVTI learning opportunities to all communities in northwest Minnesota; to provide specialized and customized 'in-house' employee training for industry; and to provide 'pre-employment' training for industry.

Instructors for all adult vocational education courses are professionals and representatives of business and industry who have many years of experience in their fields.

CPLT

Children and Parents Learning Together is a program for parents and pre-school children which includes a variety of weekly group activities for parents and children together, a toy and book lending library, and a monthly newsletter.

This program is one of 36 pilot programs in Early Childhood and Family Education located throughout Minnesota and funded by the State Legislature. The programs are coordinated by the Minnesota Council on Quality Education. You are invited to participate if you are an expectant parent or the parents of a child aged birth to kindergarten, and if you live within the Thief River Falls School District. Services are offered at no or minimal cost, with fees waived if you are unable to pay.

Support Services

The Support Service Department is available to all students. The purpose of this particular office is to provide orientation, counseling, and guidance for all students that may potentially have or currently are having problems in school because of learning ability, physical handicaps, finances, home environment, emotional instability, race, etc.

Students and potential students will be assisted in many areas of concern including the following:

1. Review of personal objective in relation to AVTI training opportunities.
2. Necessary special entrance testing.
3. Financial assistance.
4. Communications with their outside Agency, if any.
5. Part-time employment.
6. Special housing arrangements, if needed.

Small Business
Management
Instructor/Coordinator

Small Business Management

The main purpose of the Small Business Management Program is to assist business operators in achieving their business and family goals through the improved management, organization, and operation of their business.

Up-to-date records are kept of all business transaction and important family expenditures. At the close of each business year the records are analyzed to determine the strengths and weaknesses of the business.

Instruction includes monthly Instruction sessions held at the AVTI and individual instructions by the instructor at each business. During these visits the business family and instructor can study specific questions and problems pertaining to the individual business.

Using applied business management principles, instructors discover with the enrollees the strengths and weaknesses of their businesses. Through skills gained in this program, the weak points can then be minimized, allowing the business operator to make progress toward his/her established goal.

Adult Farm Management

The Minnesota Vocational Agriculture Farm Management Program is available to all Minnesota farmers through a local Vocational Agricultural Instructor. The program is based upon the principles of management, education, and the development and achievement of goals. It is oriented toward the farm family, and its primary responsibility is to assist the family to reach its goals. The annual analysis program supplies the farmer with a computerized depreciation schedule and a very complete analysis of his/her farming operation. In addition, the farmer works with a farm management instructor who teaches basic accounting procedures and helps individuals to budget, interpret his/her analysis, plan operations, and plan credit needs. The ag man also helps the farmer to keep up with the latest agricultural developments.

This program has grown rapidly. Farmer's credit sources and agribusinessmen enthusiastically endorse it. This year there are over 900 farmers in Northwestern Minnesota participating in the program and 5,000 enrolled in the whole state of Minnesota. The program now extends into North Dakota, Alaska, Oregon, Connecticut, Nebraska, Washington, Wisconsin, South Dakota, Iowa, and Idaho.

To enroll, contact your local Vocational agriculture instructor. If your school does not have a vo-ag department, contact the vo-ag coordinator at the Area Vocational Technical Institute. Any farmers in Minnesota may enroll. A fee is charged to cover the cost of preparing the analysis report. The present analysis fee is $55 per record.

Mine Safety

In October, 1978, the requirements for obtaining approval of training programs and specific kinds of training for miners under the Mine Safety and Health Act (MSHA) were proclaimed by the U.S. Department of Labor. The purpose of these rules is to insure that employees and employers in gravel, sand and quarry operations are effectively trained in matters affecting their health and safety, with the ultimate goal of reducing the frequency and severity of injuries in the nation's mines and gravel pits. MSHA requirements include statutory rights of miners, self-rescue, first aid, cardiopulmonary resuscitation, transportation controls and communications healyh emergency evacuation plans, firefighting, ground controls, electrical hazards, health protection, prevention of accidents, and explosives.

The regional instructor/coordinator works with three advisory committees to determine the specific training needs of the mining and gravel industry in the region. He contacts these operations to make them aware of their responsibility to the training requirements, develops instructional materials for the 8-hour training program and conducts in-service training for other MSHA instructors throughout the region. He has implemented training for approximately 500 persons since the program began in 1979.

For everything there is a season,
and a time for every matter under heaven:
a time to be born, and a time to die. . .

The 1980-1981 yearbook
is dedicated to the memory of
Ralph Hanson, Architectural Drafting
Instructor
