

NORTHLAND COMMUNITY AND TECHNICAL COLLEGE

2215 MILITARY SERVICE AND DISABLED VETERANS

Enrolled students who are called to active duty with the military service, and enrolled veterans who have a service-connected disability, as certified by the United States Department of Veterans Affairs, and whose service-connected medical condition or medical treatment requirements reasonably prevent the person's attendance at or progress in part or all of the person's higher educational training or studies at any given time, are provided one of the options listed in 2215P Military Service and Disabled Veterans Procedure. The terms "medical condition" and "medical treatment requirements" must be broadly construed and without regard for whether or not they relate directly to the person's service-connected disability.
