AASC Checklist

Kathy Huschle did not schedule a group meeting. In January, the group will meet to formulate a draft form to be reviewed in February.

Freshman Experience

The task group's recommendation is to use GPS Lifeplan to produce uniformity across the college and will be built into the CCO format. A task group member will present the Freshman Experience course to faculty on each campus.

Liberal Arts Pathways

The 29 Liberal Arts emphasis areas will be narrowed down to 3 plans. The 3 plans will be input to be displayed on the web. The web team will add it to the work plan to change the language to Area of Interest.

Education Course

The task group determined the course Introduction to Education 3 cr 2/0/1 will be developed in CCO format to be presented at the February meeting. The course will be offered in spring 2014. Faculty will develop field experiences with all levels of K-12 education. Students taking the course may be required to complete background check based on the sites policy. MSUM, UND, and BSU are all considering articulating the Intro to Education course.

Institution Learner Outcomes in Common Course Outline

The Assessment and Program Review committee recommended the following:

- remove "ILO—Foundation Skills:" from the front of each ILO in the CCO.
- place (Fulfills ILO: 1, 3) at the beginning of the course description.
- revise CCO to reflect that ILO's are met in courses with appropriately written (i.e. measurable) objectives.
- should be no more than 2 ILO's identified and assessed in any course.
- this is for all courses of 3 cr or more in length. Shorter courses (1-2 cr) may include an ILO, but are not required to have an ILO.

In January, AASC and APR will meet to finalize exactly how the CCO should be updated. Workshops will be offered during spring term for faculty to review and update the CCO with the change implementation to occur over summer.

Course Prerequisite Review

Brian Huschle stated another review of prerequisites will occur when the CCO are reviewed for ILO updates.
