Committee recommends revisiting the course naming on CPTR courses: Networking I, II, III, IV

### **Review/Discussion 60/120**

Brian indicated all programs need to be at 60 credits or apply for MnSCU waiver by December 2013. Advisory boards must include a student. Program waivers should be submitted to AASC. Once approved, the waiver will be submitted to MnSCU by the Academic Dean.

### **ACT Placement Scores**

If a student received a 21 in reading or 18 in English would be deemed college ready for college English. Steve will email Andy, who will seek input from department faculty, with recommendations regarding what the scores should be in reading and English. Summer/Fall registration starts April 1 and scores should be set within the next two weeks.

### **Policy Review**

Mary requested that committee members notify her if they would be interested in reviewing policy series 2000 and 3000 level.

### **AASC Checklist**

Kathy Huschle reviewed the checklist steps with the committee.

The committee suggested the following :

Under Step 1 -- add work with academic dean.

Adding a Step 4 – Transition Plan, to make certain it is not overlooked.

Under, Examples of supporting documentation, add another bullet --

- New programs documentation to meet system approval requirements

Program changes that are informational pieces do not need committee approval; will be brought to AASC by the Academic Dean to be recorded in the minutes. Program specific requirements will be a standing agenda item.

### **Education Course**

Kerry Jaeger and Peggy Rogers are working on developing the course, Introduction to Education 3 cr 2/0/1. The articulation piece should also be developed and presented to committee by April. MSUM, UND, and BSU are all considering articulating the Intro to Education course.

### **Institution Learner Outcomes in Common Course Outline**

AASC recommends time is dedicated at the August in-service to update institutional learner outcomes to fit the process identified by APR committee. All courses should be reviewed by September 2013. Each course should have no more than 2 ILO's identified and assessed. That is for all courses of 3 cr or more in length. Shorter courses (1-2 cr) may include an ILO, but are not required to have an ILO. The CCO will need to be revised to reflect that ILO's are met in courses with appropriately written objectives (i.e. measurable). The length of the program determines how many of the 5 ILO areas are required. A task force (Jon Beck, Kathy Huschle, Tishara Melcher, Beth McMahon) will provide examples for faculty to review.
