Program Plans

The committee discussed where NCTC should store archived programs' semester order plans. Discussion will continue.

BaseCamp

Curtis Zoller demonstrated the basic features of basecamp instead of using dynamic forms for AASC.

Brian Huschle indicated OneNote was expected to be approved by MnSCU in spring semester and questioned if OneNote is similar to BaseCamp. OneNote offers the feature of multiple people making direct changes to a document. BaseCamp does not allow all to make changes, only one designated individual. BaseCamp can easily be used with individuals on and off campus for communication purposes. Curtis suggested adding all AASC members to BaseCamp allowing everyone the opportunity to review the system to determine whether or not this system will support the committee process.
