

Meeting Name: Developmental Ed Task Group Minutes

Date & Time: Feb. 4, 2015: 11-11:55

Campus & Room # 149/601

Committee Minutes

Attendees: Brian H, Farah R, Ruth C., Lynell W., Ralph C., Carey C (late)

Absent: Jen D.

Topic	Responsible Party	Discussion/Outcome
Call to order	11:04	First meeting of academic year with Brian as new administrative lead this year.
1. Update on Math	All	<ol style="list-style-type: none"> 1. Changes in curriculum last Spring/Summer are working for Math 0090/0098. 2. Students actually taking Math 0080 wouldn't likely survive in Math 0090 without the course first. There is a need for this level. 3. Math 0080: Many who assess into this don't take/complete the course (or reassess) and as a result they do not complete their program/graduate because the course is a program requirement for graduation.
2. Update on English	All: Action Items: Brian Ruth	<ol style="list-style-type: none"> 1. Ruth is seeing a good success rate of students with cut scores below 40 being successful in English 0085. 2. Discussed pulling report to look and compare success rates for this past fall (Engl 0085 to 0095 to Comp I) and compare to prior years' reports tracking this for English 0075- Comp sequence and READ 0098/ENGL0090. Brian action item. 3. Discussed the Applied Communication (1000 series course) and Developmental Level Occupational Communications type course (former ENGL 0093 model). May discuss further and explore whether/how to

		<p>determine whether we want to see if current developmental read/writing courses are meeting program needs.</p> <p>4. Discussed leaving the ENGL 0085 and ENGL 0095 as is curricular and placement score, and what this may require for programs who used to have the cut score set for the break between ENGL 0075 and 0085: May need to look at moving those program cut scores up to level of ENLG 0095, down, or explore if we can leave it as is even though it doesn't align with courses. (Brian will do some further looking at this with Student Affairs.)</p>
3. Models/response to having students with needs/assessments for course work below the High School Level	All	<p>1. Discussed broadly co-req, pre-req, use of HS Transcript, ACT scores, etc.: Challenges with implementing these models broadly with in our system.</p> <p>2. Currently Ralph is partnering with ABE in TRF for MATH 0080: Some registered ABE students registered and taking the course. Action: Ralph will report more on this at next meeting.</p>
4. Statewide Dev Ed Summits	All	<p>1. Instead of a single statewide meeting in St Paul, the system is supporting regional summits. Schools can write and RFP to access funds to host a summit.</p> <p>2. At this time, NCTC is not looking to write a RFP.</p>
5. Request by Lincoln HS for CHS Math 0098	All	<p>1. Discussed request: Not able to do this as PSEO Law does not allow delivery of HS level work through program.</p> <p>2. Discussed looking at how to work with the H.S. to support their efforts to better insure their graduates are college ready. Action: Carey to continue discussion with Lincoln H.S.</p>
Adjourned at 11:56		<p>Plan to hold a March meeting – Brian will convene. (Action)</p>
