

CERTIFIED INFORMATION SYSTEMS SECURITY PROFESSIONAL (CISSP) CERTIFICATION HYBRID CLASS

Course Description

The Certified Information Systems Security Professional (CISSP) is an information security certification for security analysts. It was created by the International Information Systems Security Certification Consortium (ISC). The certification was created to ensure professionals in computer security have standardized knowledge of the field. Earning a Certified Information Systems Security Professional certificate can help you have a successful career as a computer security professional.

This course is intended for individuals looking to sit for the CISSP. Exam Tuition must be paid in FULL at time of registration.
