Unknown

Recognition

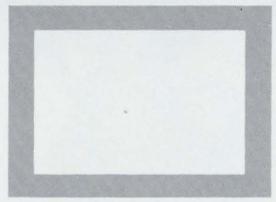

This yearbook is given in memory of 19 year old Timothy Lanctot, a student in the Auto Mechanics class. On November 11, 1967, we the students of the Area-Vocational School suffered a tragic loss of Timothy, who died in an automobile accident. With our sympathy we wish to give this annual in memory of him.

FIRST ROW: Gordon Boman, LeRoy Lee, DeWayne Miska, Boe Baker, Ted VonKampen, Edward Simpson.
 SECOND ROW: David Summerfelt, Earle Bakken, Vance Norgaard, Donald Mattson, Mark Hanson, Darrell Denny.
 THIRD ROW: Lloyd Gran, Tim Holte, Bruce Rood, Paul Odden, James Paul, Gregory Brady.

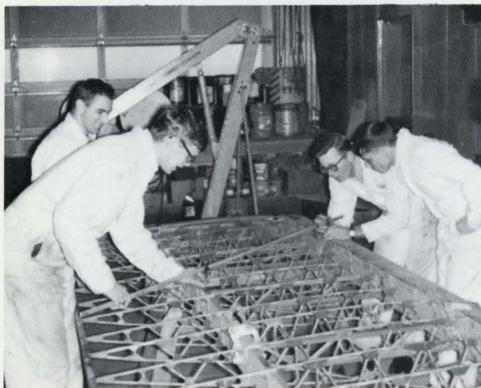

FIRST ROW: Gordon O...
 Jerome S...

The Aircraft & Powerplant Technology Course is designed to give the student the necessary instruction so that he can successfully pass the written and practical examination to obtain an A & P license and additional training which will qualify the student as a technician in the aircraft industry. The student will get a thorough understanding of Civil Air Regulations as they apply to current aircraft.

Yep! of all the airplanes I've worked on, this sure is one of them!

If I ever catch you's doing that again

FIRST ROW: Duane Nelson, Roger Meyer, Grant Haugen, Gayle Bergerton, Dean Haroldson, James Larson, Gordon Otto, Dave Brewster. SECOND ROW: Gregory Gray, Larry Murray, Richard Schroth, Jack Rosenkrans, Jerome Sorenson, David Kezar, Arthur Mai, Richard Horning.

In addition, he will take subjects such as Engines, Welding, Aircraft Electricity, Airplane Structure, Instruments and Radio, Engine Operations and Testing, Drafting, Woodworking, Hydraulics, Aircraft Physics, Mathematics and Technical English.

Can I check it off now?

The observant ones!?

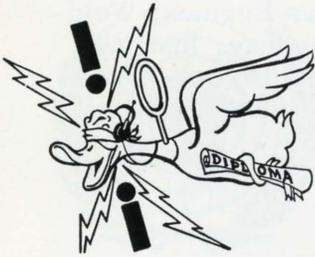

Aircraft

Power Plant

ROW 1: Bruce Andersen, Stanley Jasnoch, Adolph Stich, Wille Hanson, Pete Milne, Henry Hammerback. ROW 2: Thomas Falls, Steven Hamerski, Carl Kroll, Michael Junker, Lowel Mitchell, Jacques Johnson, Gregory Halvorsen. ROW 3: Richard Swenson, Rodger Kluzack, Tom Voge, Norman Schnieder, Robert Lang, Darrell Smith, Keith Clow.

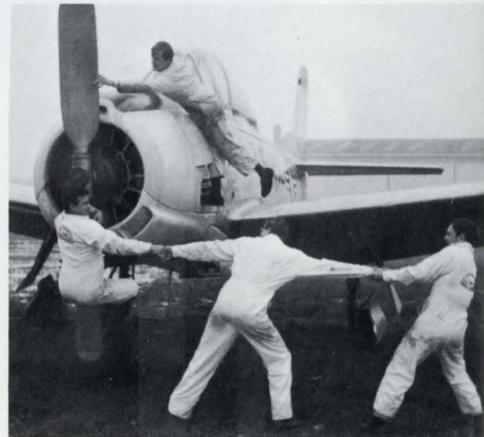

He will have a concentrated course on the latest developments in jet aircraft engines. This will include actual work on jet aircrafts as well as disassembly and repair of jet engines. Successful completion of 18 months training entitles the student to a Certificate of Graduation and permission to take the FAA examination for an A & P license. The course is approved by the Federal Aviation Agency.

See! this is how it is done!!

Hey, you guys wait, this just can't be right!!!

an't be

Rather complicated looking, huh men??????

It was supposed to work.

Henry "eulucidates"

Architectural Drafting

ROW 1: Lynn Beadles, Gene McKinnon, Terry Vajak, Jerry Beutler, Gregory Jensen, Daniel Naastad. ROW 2: David Nordenstrom, John Krankkala, Jack Donahue, Larry Mogan, Guy Kropp, Stuart Bakke, Robert Lindquist.

The draftsman is the middleman between the architect who originates the idea and the craftsman who fashions it into reality. The qualifications a draftsman needs are a good sense of spatial relationship and finger dexterity. In addition, he needs the ability to work with figures and to reason out problems.

Perfection is important!!!

It just doesn't come out!!

Auto Body Repair

ROW 1: Bob Zejdlik, Rich Grandbois, Chipper McGlynn, Glen Ekman, Vernon Roy, Daryl Johnson, Lyle Reintson. ROW 2: Marvin Foss, Wayne Knutson, Jerome Herington, Don Jernberg, Brain Blanchfield, Wayne Olson, Jerry Boen.

Auto Body Repair is a 2000 hour course designed to give the graduate a basic understanding of the trade, through observation, demonstration, and practical experience.

Much of the practical experience is given on cars belonging to the public. The student starts making minor repairs on older cars or pickups and then progresses through all the steps of repairing and refinishing until he finally repairs wrecks.

Boy, I do nice work!

Lyle Rein-
Wayne Olson,

under-
experience.

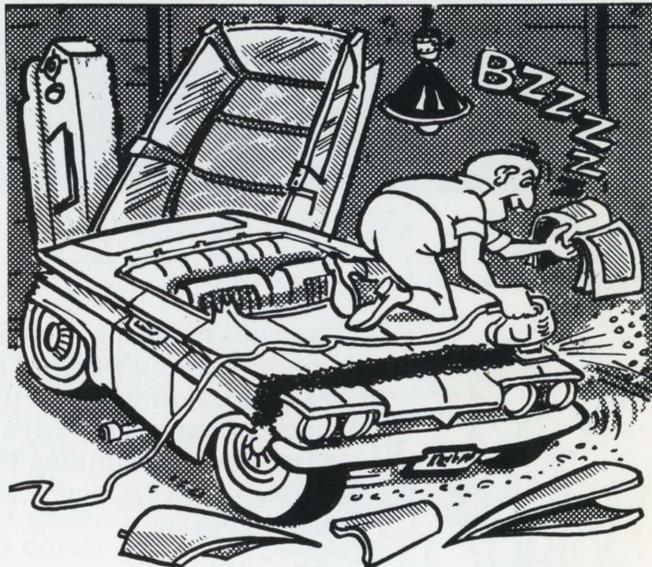

the student
through all

Would you believe it's finished?

The student also receives training in welding, leading, shrinking, glasswork, frame straightening and general shop safety practices.

Estimating of repair work to be done as well as sound business techniques are also taught in this course.

See anyone you know?

What do you think you are going to do with that?

Auto Mechanics I

ROW 1: Ned Johnson, Richard Cirks, Bill Yonke, Robert Gaetz, Clare Kleinwachter, Daryl Fredericks, Allan Stangel. ROW 2: Robert Manderud, Alan Luoto, John Bugge, Forest Leslie, Jack Riepelle, Robert Petrie, Jerry Johnson, Richard Manderud, John Wawzyniak.

The auto mechanics course prepares students to enter the automobile service field as general auto mechanics. Practical trade training is offered in all phases of repair, service and maintenance of passenger cars, trucks, and tractors. Training is started in determining the repairs needed and in developing skill in using correct procedures in restoring automobiles to serviceable condition.

"Cleanliness is next to Godliness"

"Professional" demonstration.

Auto Mechanic II

ROW 1: Tim Lanctot, Leslie Foster, Jerry Anderson, Victor Broadwell, Wesley Hegreberg, Michael Arnold.
 ROW 2: Thomas Miller, Robert Nowacki, John Nelson, David Larson, Richard Peterson, Michael Ophus.

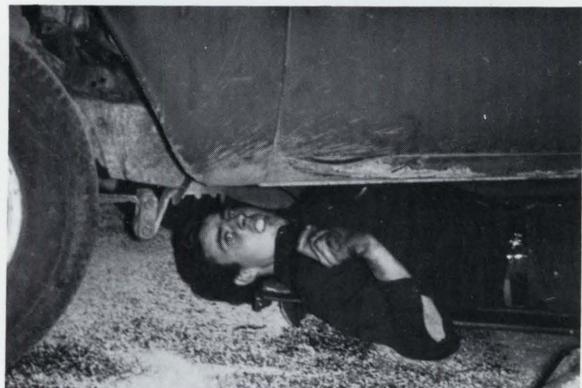

This training is given in the school's garage shop where the student works on customers cars. Modern machinery, tool and test equipment enable the student to secure instruction and experience in the repair of the chassis, engines, generators, distributors, brakes, standard and automatic brakes, standard and automatic transmission, electrical systems, power steering, front ends, lubrication, and welding. Shop training is correlated with theory and related work. Beginners course-36 weeks. Advanced-36 weeks.

"Clean-up time"

Our "under" cover agent.

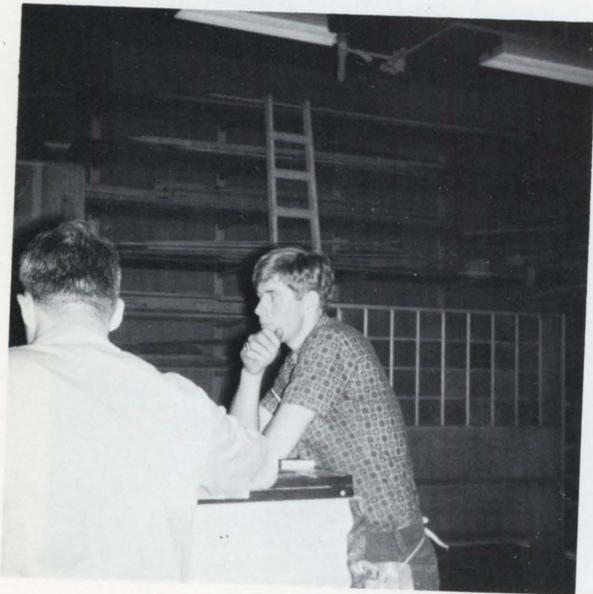

Carpentry

ROW 1: Kenny Palm, Ralph McQuiston, Paul Abrahamson, Randy Cole, Alvin Paggen, Jerry McDougall, Darrel Linder. ROW 2: John Sang, Eldin Okstad, Curtiss Farbo, Conrad Hontvet, Vernon Gunderson, Steven Jorland, Stuart Hanson.

Dreaming huh!!

Carpentry offers training in the use of hand and machine tools, basic car entry practices, framing of buildings, interior and exterior finishing, sketching and drawing, reading and interpreting of plans and specifications, form building, cabinetry, building materials, estimating and cost accounting, and other trade requirements.

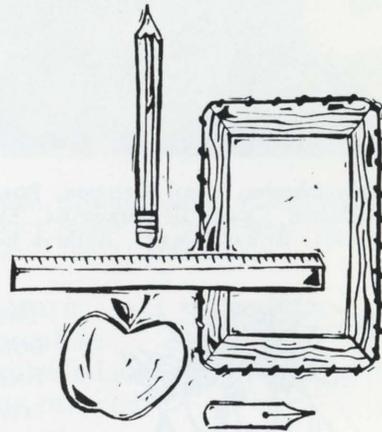

Carpentry

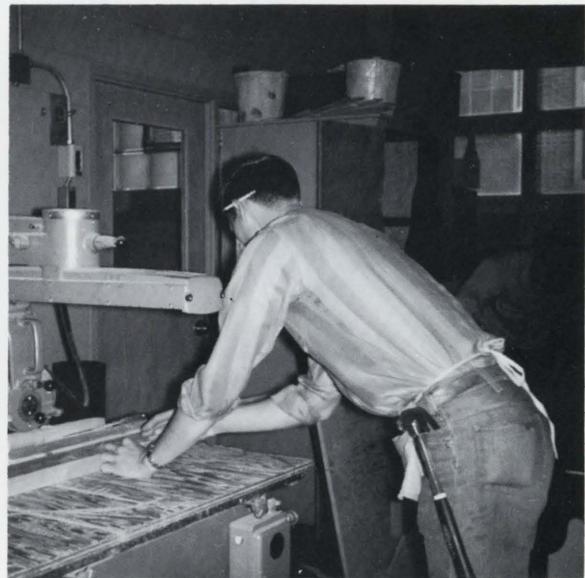

A rather "boring" process!

A cutting tool is no better than its edge.

Watch the fingers!!!!!!!

The "ambitious" one??

Cosmetology I

ROW 1: Judy Johnson, Carol Morrison, Roger Severson, Phyllis Edgar, Barbara Comer. ROW 2: Gail Knutson, Barbara Anderson, Donna DeMaranville, Eleanore Thompson, Marti Harris, Sue Ulfers. ROW 3: Nancy Efteland, Susan Niemela, Barbara Larson, Kathryn Jordet, Carolyn Bushaw, Carol Thorstad.

Marty says, "Just relax"

The Cosmetology Department is approved by the Minnesota State Board of Hairdressing and Beauty Culture Examiners. Successful completion of 1500 hours of training entitles the students to a Certificate of Graduation and permission to take the State Board Examination; these examinations are conducted each month.

She'll never believe this.

Cosmetology II

ROW 1: Elaine Klein, Kathy Stensrud, Phyllis Nichols, Marcia Lorenson, Sharon Adrian, Phyllis Friborg. ROW 2: Marcy Brown, Mariann Foss, Peggy Schauls, Yvonne Donarski, Nancy Folkestad, Judy Hoaas. ROW 3: Linda Aaseby, Madonna Schumacher, Teresi Grindeland, Pat Halldin, Yvonne Tonka, Joan Bakken.

Successful applicants then received a Minnesota Operators License. Regular attendance enables the student to complete the training in 9 1/2 months. The course covers the knowledges and skills necessary in the performance of all services offered in today's modern beauty shops. This includes facials and make-up, manicuring, scalp and hair treatments, shampooing, hair shaping and styling, permanent waving and hair coloring. Other required subjects are hygiene, sanitation, sterilization, business management and laws pertaining to the craft.

Thank heavens for the hairspray!

WHO!! Took my clips????

Electronics I

ROW 1: John Johnson, Jim Schmidt, Roger Dyrdaahl, Harold Dupree, Loren Johnson, Arnold Boman. ROW 2: Clarence Anron, Ron Amundson, Bob Wold, Dan Maloney, Dennis Bitz, Ron Foss, Ronnie Poppenhagen.

Pure concentration!!

An Electronic Technician is a person who maintains, installs, operates, designs or otherwise works with electronic equipment. Opportunity is given the student to learn all the fundamental principles of electricity and electronics, and also to acquire skill in the application of those principles in practical working equipment.

Completing a Circuit??

Electronics II

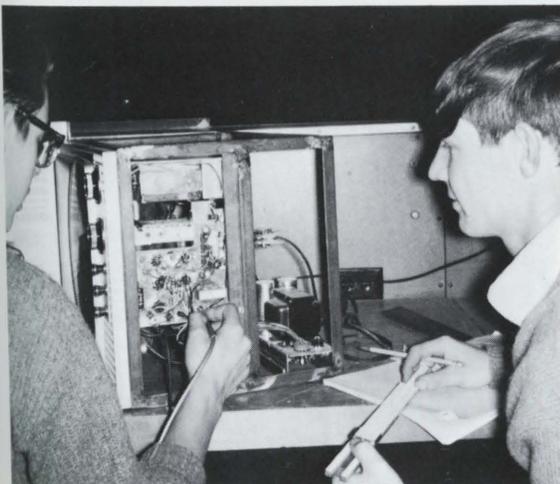

ROW 1: Dan Dahlgren, Bill Knight, Ken Johnson, Bruce Larson. ROW 2: Donavon Engen, John Peltier, Ronny Knickson, Bruce Steen, Robert Gjovik.

This course gives two 36 week terms of training, covering basic electronic laws and their applications the first term and more advanced information and practices the second. Every effort is made to develop the students scientific understanding and his reasoning ability as it is required for this field of occupation. It is practically impossible to get such a job without training. Students who complete the electronics course with a good record will have no difficulty finding employment.

The start of another day!!

Checking out the circuits???

Practical Nursing

FIRST ROW: Valerie Kuznia, Susanne Lange, Sharon Meier, Luann Heisel, Cora Sandberg, Linda Stene. SECOND ROW: Eunice Severts, Patty Judd, Judy Jensen, Linda Hageman, Doris Brevik, Beverly DuBord, Lana Gopin. THIRD ROW: Karen Kroening, Joyce Peterson, Mary Weiss, Mavis Brekke, Patricia Hetland, Helen Carpenter, Judith Pickett.

PRACTICE MAKES PERFECT!

The Practical Nursing course is approved by the Minnesota Board of Nursing and it is a course planned to give theory and practical training in the fundamentals of patient care in the home or hospital. The theoretical training is given in the nursing classrooms of the Area-Vocational School and the practical experience is received in Northwestern Hospital, Thief River Falls, Minnesota. Students also receive six weeks of psychiatric training at the Fergus Falls State hospital. The Student Practical Nurse (LPN) upon satisfactorily completing 50 weeks of training and passing the state board examination. Licensed Practical Nurses assist physicians and professional nurses, serve in the home, hospitals, institutions, doctors' office, health agencies, and where nursing services are needed.

The student gradually begins practice in the hospital. She learns to apply the classroom experiences to the actual patient. This helps to prepare the nurse for the future when she will be more independent.

RUB A DUB DUB!!

Smoothing the wrinkles.

Welding

ROW 1: David Zayic, Victor Kamel Jr., Bruce Bembo, Brad Balderston, John Bruggeman, John Abrahamson, Gary Halvorson, Ron Jenson, Myles Olson, David Dupree, Orris Stengrim, Gene Peterson, Mick Lefebure, Gerold Krob.

The welding course teaches the fundamentals of oxy-acetylene (gas) and arc (electric) welding and offers the student an opportunity to learn a profitable and important growing trade. Instruction covers the recognition and characteristics of all fusionable and weldable metals commonly encountered, temperatures, materials, and equipment used in welding, tempering, hardening, annealing, hard facing, layout of work, reading welding drawings, laws of expansion and contraction, welding kinks, use of jigs,

Accounting

ROW 1: Margaret Halvorson, Barbara Yoger, Margaret Wollin, Linda Schoenborn, Claire Kulzer. ROW 2: Wayne Sewill, Bruce Bourque, Joe Tulibaski, Edward King, Duane Langness, David Hall. ROW 3: Terry Schultz, John Halsa, Warren Thompson, Robert Gaber, Richard Kaster, Larry Hagman, Larry Borowicz.

A busy day at the office.

The purpose of this course is to give a basic thorough knowledge of the principles of accounting, together with many other practical subjects in the field of business. Each student will take the basic general courses offered each quarter. In addition you will specialize in Accounting for about two hours each day.

Oh no! I goofed again!!

A busy day at the office.

Students who enroll in the Clerical training course will be prepared to fill the growing need for typists, especially statistical typists, file clerks, machine operators, payroll clerks, receptionists, and other general office workers.

The course is designed primarily for students who do not desire to specialize in shorthand or accounting. A background in high school commercial courses is not required.

Working hard or hardly working.

Secretarial

ROW 1: Sandy Morris, Joan Vickery, Linda Berry, Elaine Iverson. ROW 2: Judy Gusulak, LaVonne Engstrom, Sherry Sabo, Carol Christianson, Virginia Myhrer.

Subjects included in this course are: business law, business correspondence, receptionist training, basic book-keeping, personality development, bank services, proper work attitudes, and business office procedures. This nine month secretarial course is designed to provide students with saleable skills in the use of business machines. There is a definite need for secretaries who are well trained, and have the ability to take dictation rapidly.

One of those "MOEA Meetings."

The Hard-working MOEA!

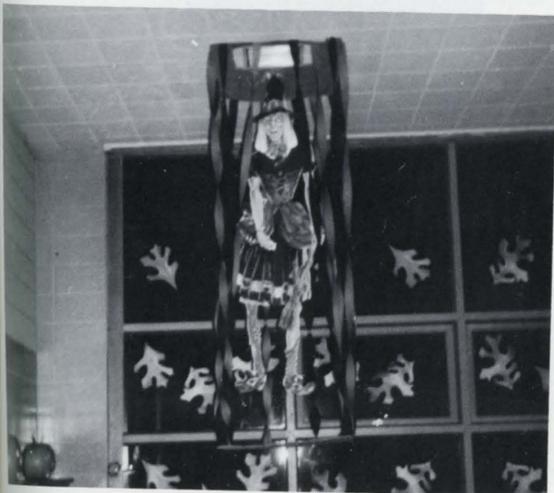

The Business Education Department has formed a club which is affiliated with the Minnesota Office Education Association. Dues are \$1.25 annually and the purpose of the local club is to encourage greater interest in Office work as a career. The club sponsored a Halloween Dance in October and sent three members to the State Delegate Assembly held at the Radisson Hotel, November 5 and 6, 1967. The next trip for the members will be held at the Radisson Hotel on March 4 and 5, 1968. It is at this conference that the students will participate in competitive events against students from other Area Vocational Schools in the state. These events reflect not only the abilities of the student but the ability of the instructors as well. In addition, leadership training sessions are conducted so that the students involved in the organization can step into business and industry better prepared in this valuable area.

New School

This new building will be in use September 1968. It covers 43,000 square feet and was built at a cost of \$800,000. It will provide a new "home" for the Welding, Auto Body Repair, Architectural Drafting and Office Education Departments. Also included will be the administrative offices, cafeteria and student lounge. New programs to be offered are Radio Announcing, Marketing and Court Reporting. Other courses are under consideration.
