

The following study reports unduplicated enrollment for department courses and programs (if applicable) for the last five Fall Terms.

Table 1a-c: Program Enrollment

There are no programs directly associated with this department.

Fall 2022 (20233)	2859	95	84%
Fall 2023 (20243)	2336	78	97%

According to MinnState, Full Year Equivalence (FYE) is 30 credits for a fiscal year. FYE is calculated by taking the total credit hours produced divided by 30.

Overall Fill Rate: the percentage of seats filled for all department courses according to course/program capacity.

The following study reports course enrollment for all department courses offered in the last five fall terms. The number of students enrolled is indicated, followed by the program/course capacity. Fill rates are calculated by the number enrolled divided by capacity. Use the toggles (- / +) in the left sidebar to collapse or expand each course.

The following study reports Allocated Costs reported to Minnesota State. Table 4 indicates the reported FYE that utilized these funds and the total department expenditure submitted. Minnesota State's Cost Study Analysis compares all like departments throughout the system. A department is then assessed by its average expenses per FYE. If this average lands within 90%-110% of the Systems average for that department, they are considered "Within the Band." If the average is greater than 110% of the System's average, that is "Above the Band," or if the average falls below 90% of the System's average, that is "Below the Band." The goal is to be Within the Band.

The following study focuses on the persistence and completion rates of all students (concurrent and undergraduate) who declare at least one of the department's programs (CTE only) or enrolled in a course (Liberal Arts only) during their first term at Northland. For consistency with Minnesota State reporting, 150% completion rates only include full-time students, as a part-time student is unlikely to complete a program within 150% of the time. As we are a 2-year institution, Minnesota State classifies completion as either graduating or transferring. For associate degrees, 150% is three years. Diplomas are tracked at 1.5 years or three semesters. Certificates are tracked at one year, as we do not collect status information half way through a semester.
