

Career and Technical Education Annual Discipline Assessment

Program/Discipline:	Academic Year:
Instructor(s):	

Key Performance indicators

Access & Partnership

Describe overall program/discipline enrollment trends over the past five years. What factors may have impacted enrollment over this period?

Describe enrollment trends based on course/program delivery modalities. What potential impacts have different delivery modalities had on enrollment trends? Provide examples of specific challenges or successes using specific delivery modalities.

Describe any changes with clinical sites/industry partners during the academic year.

Provide an example of program changes and/or feedback received from advisory committee meetings this academic year?

Student Success & Advancing Equity

Describe trends in program/discipline retention rates and how they compare to the overall rates of the college. What program/discipline characteristics or challenges should be considered when interpreting these data?

Describe trends in student success across different student population groups. What internal factors and/or equity gaps that may impact student success and retention for these student population groups?

What initiatives could be undertaken to improve retention rates and student success, especially in student populations that are underperforming?
